PARALYSIS CURED BY FRIGHT.

Aged and Bedridden, She Arose and Escaped From Fire.

New York, Nov. 29.—With children held under their arms, clinging around their necks or hanging to their shoulders, firemen early today carried 40 screaming youngsters from a burning tenement at No. 235 Ninth avenue. At the same time 30 adults followed the rescuers down the fire escapes. Among them was a woman who for two weeks had been helpless from a paralytic stroke.

The building, a five-story tenement, was occupied by 12 families, in which the number of children average from three to six. The air shaft and stairways were ablaze and the tenants fled to the fire escapes in their night clothing. Mrs. W. A. Connaughton, an aged woman living on the second floor, who had been bedridden for two weeks from paralysis, arose and climbed into the street unaided. The fright of the moment seemed to have effected a cure and she was hurried to a neighbors home without a twinge of pain. The financial loss caused by the fire was small.

NOT ALLOWED TO WORK.

Two Murderers in Illinois Want Work or Freedom.

New York, Nov. 29.—Refused permission to do hard labor at the penitentiary at Joliet, two confessed murderers have begun proceedings in the circuit court to secure their freedom. Judges Windes issued writs of habeas corpus for the men, George Cantos and P. Pettinato and will hear evidence in their cases tomorrow.

When Judge Hutchinson sent the men to prison five years ago he ordered that they be put at hard labor. The sentence is attacked because the

court is alleged to have decreed the men to serve part of their 14 years each in solitary confinement. The prisoners allege that they may become insane from inactivity. They declare they have been ready to work but that since July 1 it has been denied them. The sentence as carried out since the suspension of labor in the prison is said to be cruel, inhuman and prohibited by the constitution of Illinois.

DAVITT SAYS NO FAMINE.

Irish Potato Crop Fairly Good—Poverty Always Exists.

New York, Nov. 29.—Michael Davitt, the Irish leader who has been in America on private business since Nov. 5 will sail for his home tomorrow. Regarding reports that the peasantry in Mayo and Galway counties is on the brink of starvation through failure of the potato crop he said the matter appears to be exaggerated. There was a wet summer and fears were felt for a partial crop failure but no apprehension exists of serious calamity. In even good seasons he said, there is poverty in the section mentioned.

FOR WANT OF FRESH AIR.

Air-tight Rooms and Gas Stove Cause Death of Sleeper.

New York, Nov. 29.—Lack of oxygen in the room where he slept has caused the death of Charles Krasny, a machinist living in Newark, N. J. The one door and window were tightly closed as to make the room practically airtight. When he retired Krasny started a small gas heater. This soon exhausted the oxygen in the room and Krasny died in his sleep.

Tried to Commit Suicide and May Yet Die.

New York, Nov. 29.—Robert Chapman, who is believed to be the son of Robert A. Chapman, of New York, has attempted to commit suicide at the Carlton hotel, says a Herald dispatch from London. HAS A RUBBER STOMACH.

Hose Substituted for Part Destroyed by Dynamite.

New York, 29.—A peculiar and extremely delicate surgical operation has been performed at a hospital in Mount Vernon which will probably save the life of Antonio Stralino, whose stomach had been partially torn out by dynamite explosion. Colls of rubber tubing were inserted in the man's stomach after part of its crushed interior had been removed. By forcing food through this tubing it is hoped to preserve his life.
